

Rules for 3 from 1 Challenge

The object of this challenge is to take three different images from the same spot. Credit will be given for creativity in taking images of a contrasting nature - for example a close up, a long distance shot and a wide angle shot.

If you decide to take your 3 shots at different times i.e. dawn, mid-day and dusk, you will have to make sure that you are taking from exactly the same spot otherwise your image will be disqualified.

You may submit three sets of three images.

Each set should be labelled 01, 02 or 03. Example: 01 TREESCAPE 1, 01 TREESCAPE 2, 01 TREESCAPE 3.

Images should have been taken this season for the purpose of the challenge.

Images should follow the standard rules for Project Images format (up to 1600 pixels wide, up to 1200 pixels high).

Images should be submitted through the website in the normal way.
